

Middels dit bulleting willen we u informeren over de invoering van een nieuwe capacatieve printplaat.

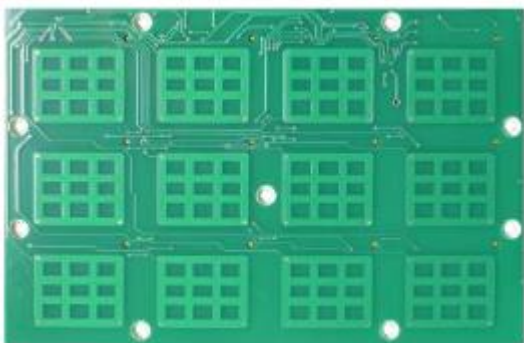

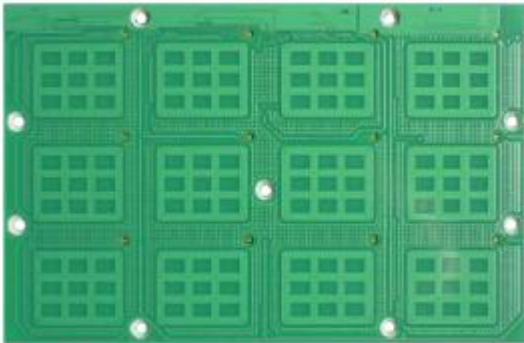

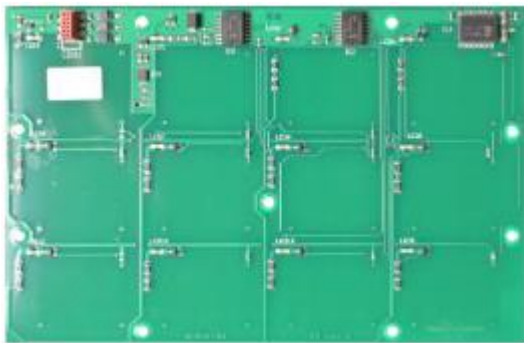

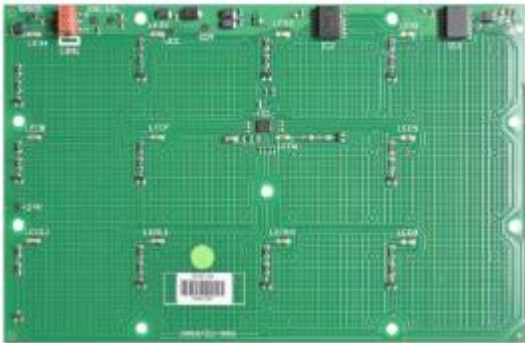

Capacatieve printplaat Art. Nr. 1005535

Application range:

- Sao Paulo
- Salvador
- Mexico
- Venezuela

De belangrijkste verbeteringen van de nieuwe capacatieve printplaat zijn:

- betere processor
- betere calibratie van de gevoeligheid
- betere reactie op kleinere vingers

Oude versie (front)	Nieuwe versie (front)
	
Oude versie (back)	Nieuwe versie (back)
	

! deze nieuwe printplaat werkt allen met de nieuwste **display software 843**.

In geval van vervanging van de betreffende print dient er een update van de software naar 843 gedaan te worden. De software 843 is backwards compatible met de vorige versies printplaten

Deze wijziging is doorgevoerd in **Week12/2019** vanaf machinenummer **xxx1903049** en hoger

Nieuwe capacatieve toetsenprint New capacitive keyboard

We would like to inform you that we replace the capacitive touch keyboard on our coffee machines.

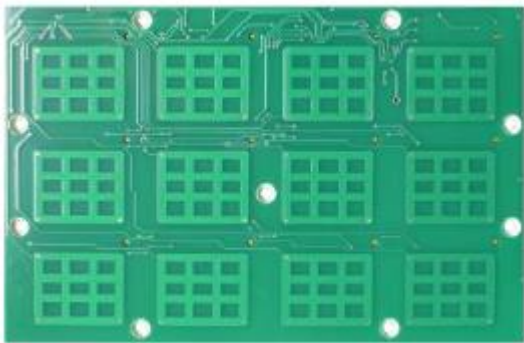

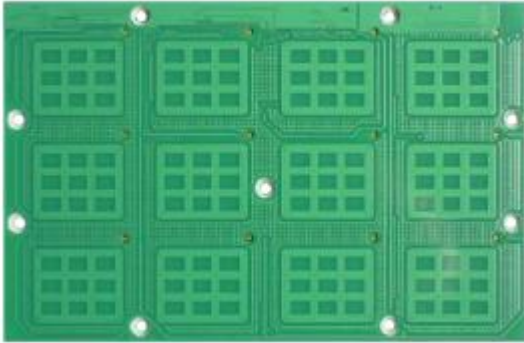

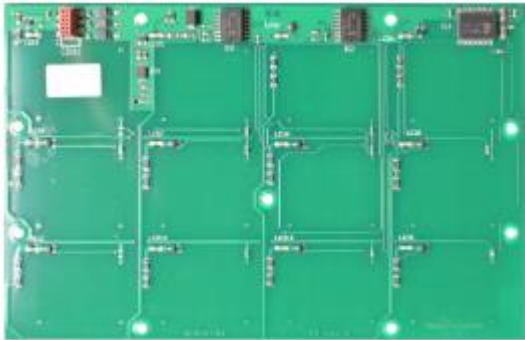

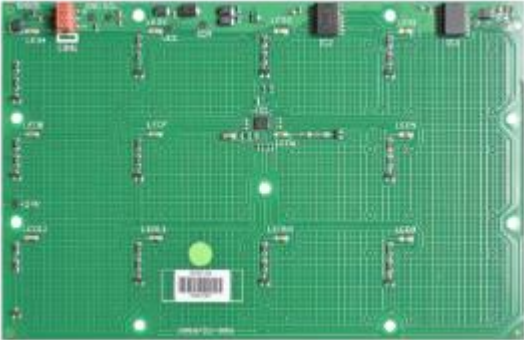

Capacitive touch keyboard Art. No. 1005535

Application range:

- Sao Paulo
- Salvador
- Mexico
- Venezuela

The main improvements of the new capacitive touch keyboard are:

- better processor
- better recalibration of sensitivity
- better reaction on small fingers

Old version (front)	New Version (front)
	
Old version (back)	New Version (back)
	

The new capacitive touch keyboard is only compatible with the **display board software 843**.

Therefore, in case of a replacement, existing machines need to be updated with the display board software version 843.

The display board software 843 is backwards compatible. The functionality with the old version of the capacitive touch keyboard is guaranteed.

This change will be implemented in **CW12/2019** from machine number **xxx1903049** onwards.
